## Strange Weather!

Have you had a reaction to this strange weather? This winter has been extremely cold but we haven't had much snow. The ski resorts are none too happy this year!

We are already well into 2012, it goes by so fast. On one hand it seems like we just started and on the other, like we have

always been doing this!

Let us know if there is anything else that you need. We will analyze what is available and either incorporate it into our offerings or refer you to a trusted source. You can always reach us @ 884-3202 or we will call you right back.

## Connection Services

Pyramid.Net can now provide a high-speed wireless service in the Minden/Gardnerville area. Please give us a call and let us know what you need.

Pyramid.Net can also provide you with 10 gigs of offsite server space for just \$6.95/mo with the first month being free. If you have years of pictures you can't lose or a small business that needs a secure backup every day or every week, you no longer need to feel unprotected or taken advantage of. The security and convenience can't be beat!

We are still offering our introductory rate for a Computer Tune-Up at \$83.30 for all Pyramid.Net customers. This service includes cleaning, servicing and any maintenance that needs to be done. We have found that most computers need more memory in order to run with the larger sized programs that are offered today. We will include the labor required to install any new memory that you need - but must bill you for the required hardware. Please allow at least a week for the repairs to leave time for shipping.

## Postini - Filter Out The Spam!

Just a reminder, Pyramid.Net has a low cost Spam Filter and virus protector available for our customers. This will cut down on both the download time and you're personal filtering, making it easier for both you and your computer.

We recommend at least two levels of Spam protection - one for your computer overall and one for your email in particular. Since Spam accesses your computer through your email, it is important to attempt to stop it at the source. Viruses and spam are normally designed to

affect your computer programs and/or your data so it is important to protect these areas as well.

All protection programs work off current spam and viruses. If a brand new virus is created, it takes all the filters several hours or up to a couple of days to engineer a work-around. But by the time it gets around to infecting your computer, you should be protected.

Call any of our technicians for a short introduction to spam filters and to have Postini added to your account for only \$.95 per month.

## About Our Organization

Pyramid.Net aims to provide you the best of the latest and greatest communication resources that are available.

We offer FREE Internet classes once a month and unlimited phone support until 6pm weekdays to make surfing as convenient for you as

possible.

Remember that Pyramid.Net has a referral policy in which we will extend you a \$5 credit on your next bill plus a month free for the new customer that you refer. Call us @ 884-3202 and tell us how we can best serve you!
